PLANT **HEIGHT** **SPREAD** **COLOR** **TIME**

CLEMATIS

Cultivated Clematis plants are often divided into three groups based on pruning needs:

Group 1 – Flowers only on old wood (previous year). Prune after spring flowering.

Group 2 – Flowers on both old and new wood. Typically, little pruning should be done for woody-stemmed members of this Group. If cut to the ground or pruned in fall or spring, flowering will be reduced or delayed but not prevented.

Group 3 – Flowers only on new wood. Can be cut to the ground in fall or spring.

CLEMATIS (Vine) ○◆

‘Candy Stripe’ 1 Gal. (group 2)	8-10’	4’	6-8” Pink & White	MayJuneFall
‘Comtesse de Bouchaud’ 1 Gal. (group 3)	8-12’	4’	4-6” Rose-pink	June-Sept
